

Strengthening Milwaukee families by empowering parents to be nurturing and by guiding youth toward positive futures.

2 out of 3 Milwaukee Teens are Having Sex!

Sexually Transmitted Infections are on the Rise!

Have the message of *abstinence* — not having sex — delivered at your school, after school program, business, or health care facility.

The statistics are alarming. The Milwaukee community **consistently ranks in the top 10 in the nation** for the percentage of total teen births. Reported cases of sexually transmitted diseases (STDs) are increasing steadily every year.

Through **Families United to Prevent Teen Pregnancy (FUPTP)**, an abstinence communication and education program, Rosalie Manor is fighting for the health, lives and futures of our teenagers.

FAMILIES UNITED TO PREVENT TEEN PREGNANCY

EMPOWER TEENS TO GAIN CONTROL OF THEIR LIVES.

Geared toward youth ages 12 to 18, this program encourages teens to choose abstinence from all high-risk activities. Additionally, they are encouraged to remain positive and make good decisions despite the negative messages they receive from the media, society and even their peers.

Parents learn proven methods for encouraging children to choose abstinence. They discover ways to communicate better with their teens, and how best to lead them to make the right choices, participate in positive activities, and develop healthy friendships and relationships.
